For Immediate Release

Successful Partnership Between Avianor and LATAM on Customized Interior Solutions

Montreal, September 9, 2024 – Avianor, an affiliate of DRAKKAR and industry leader with nearly 30 years of aerospace experience in commercial and military aircraft maintenance and interior solutions, and LATAM Airlines Group, the largest airline group in Latin America, based in Santiago, Chile, are proud to announce the successful completion of their collaborative cabin retrofit project on two Boeing 787s.

Avianor, in partnership with LATAM's Cabin Product and Fleet Projects teams, designed, manufactured, certified, and delivered customized Boeing 787 stowage units and installation kits to LATAM. The interior modifications were carried out by LATAM's MRO (Maintenance, Repair and Overhaul) team in Chile, and the installation was supported by Avianor with an on-site engineering team member.

This project highlighted Avianor's aircraft interior modification expertise. The team demonstrated its ability to support customers worldwide with turn-key solutions and outstanding service.

The Avianor package for the retrofit of these two aircraft, completed in June and most recently in mid-August, was approved by the Federal Aviation Administration (FAA) in the U.S. and validated by local authorities in Chile, the Directorate General of Civil Aviation (DGAC).

“This partnership, focused on delivering customized interior solutions for LATAM's fleet, has been marked by the exceptional collaborative efforts between the engineering, manufacturing, and operations teams of both companies. We are proud to have delivered a product that meets the unique needs of our client and to showcase top-quality, interior solutions across borders. Avianor is committed to supporting its current, and future clients, anywhere in the world.” said Marie -Christine Huberdeau, Interiors Sales Vice President, Avianor.

“We are pleased with the results achieved by Avianor. This modification will allow us to standardize our fleet, simplify our operation, and enhance passenger experience. We look forward to continuing our partnership in the future,” stated Jaime Cornejo Swett, Cabin Interiors and IFEC Director, LATAM Airlines Group.

About Avianor (www.avianor.com) | [LinkedIn](#)

Avianor, an affiliate of DRAKKAR, has been a leader in MRO and interior solutions of commercial and military aircraft for nearly 30 years. Located at Montréal-Mirabel International Airport (YMX), it has 225 permanent and temporary employees, in addition to 350,000 square feet of hangars, manufacturing and repair shops, warehouses and offices.

The A220 Center of Excellence is set to be fully operational by Fall 2024. Avianor maintains its growth and position of choice within the local, national and international aerospace industry.

About LATAM AIRLINES GROUP | [LinkedIn](#)

LATAM Airlines Group S.A. and its subsidiaries are the leading airline group in Latin America, with presence in five domestic markets in the region: Brazil, Chile, Colombia, Ecuador and Peru, in addition to

international operations within Latin America and to Europe, Oceania, Africa, the United States and the Caribbean.

The group has a fleet of Boeing 767, 777, 787, Airbus A321, A321neo, A320, A320neo and A319 aircraft. LATAM Cargo Chile, LATAM Cargo Colombia and LATAM Cargo Brasil are LATAM group's cargo subsidiaries. In addition to having access to the bellies of the passenger affiliates' aircraft, the cargo subsidiaries have a fleet of 20 freighters. These cargo subsidiaries have access to the group's passenger aircraft, and operate within the LATAM group network, as well as on exclusive international routes for cargo transportation. In addition, they offer a modern infrastructure and a wide variety of services and support options to meet the needs of its customers.
